

MAINTENANCE TECHNICIAN

Free Flow Wines is looking for candidates who are passionate about what they do, enjoy working hard and thinking outside the 'bottle'. At Free Flow, a diverse, supportive and fun environment is core to our culture, and we are looking for employees who share these same values. If you enjoy a fast-paced and dynamic workplace and care about quality, customer success and sustainability, we are looking for you!

Free Flow Wines is looking for a Maintenance Technician who will report directly to the Maintenance Supervisor. This position will provide technical support to wine canning production assembly machines and to other automation equipment; ensuring compliance with internal procedures, quality systems, policies, OSHA standards, and other regulations. The warehouse is in Sonoma, CA. This position has no supervisory responsibilities. There will be some swing-shift responsibilities.

Some Responsibilities:

- Lead effort to simplify wine can size and packaging changeovers
- Lead maintenance on line canning equipment.
- Complete PM inspections and documentation
- Independently diagnose equipment problems and determine course of action for repairs.
- Recognize and efficiently troubleshoot mechanical, electrical and hydraulic repairs
- Recognize PLC/HMI issues and select appropriate steps to fix problems.
- Test and calibrate equipment to ensure it is functioning within specified standards
- Ensure safe use of equipment. Maintaining all equipment in a safe manner to prevent injuries.
- Communicates and works with entire Free Flow Warehouse Team.

Qualifications:

- Minimum 3 years' experience in a maintenance role required.
 - Experience in wine bottling lines a plus
 - High School diploma required; Associate Degree a plus.
 - Organized with the ability to execute with little oversight
 - Ability to maintain good relationships with vendors and co-workers.
 - Strong knowledge of hydraulic and electrical/electronic systems.
 - Basic computer skills.
 - Perform work in a quality fashion.
 - Boiler maintenance, Air compressors, Waste water and other industrial manufacturing facilities experience.
-
- This is a Non-Exempt, Hourly position.
 - Med., Den., PTO & Holiday pay available after a short waiting period.
